- ✓ **HyperGlider** is a lightweight, high speed, affordable personal power catamaran.
- ✓ **HyperGlider** gives "drifting" an entirely new meaning when it comes to being on the water!
- ✓ **HyperGlider** adheres to strict standards of excellence to ensure each boat is built with a high caliber of skill and attention to detail.

## SPECIFICATIONS

<b>Length Overall (LOA)</b>	12'6" (3.81M)
<b>Beam</b>	6'6" (1.98M)
<b>Boat Weight</b>	780Lbs (353.8kg) Approx.
<b>Draft</b>	Motor Up – 5" (12.7cm) Motor Full Down – 14" (35.56cm)
<b>Hull Construction</b>	Resin infused fiberglass & carbon fiber materials in combination with high density closed cell foams
<b>Maximum Load</b>	600Lbs (272.16kg)
<b>Propulsion</b>	30HP/40HP
<b>Fuel</b>	6 Gal (22.7L)
<b>Warranty</b>	Fully Transferable 5/5/1 (5-year hull/5-year motor/1-year accessories)

## STANDARD FEATURES

- Propulsion – Tohatsu® 30HP 4 Stroke Outboard including a High-Performance Stainless-Steel Propeller for peak performance (other power options available upon request)
- 6 Gal removable external fuel tank
- Type 24 battery (starting) with waterproof (IP68) rated 30Amp main power shut off.
- USCG LED Navigation lighting
- 2 High intensity LED docking lights
- Bimini top sunshade
- Bluetooth sound system
- 2 Arch mounted rod holders
- 2 Shock mounted soft ride bolstered seats
- Waterproof steering console with cup holders
- Integrated 1-piece 16" high polycarbonate front spray shield (21" high optional add on)
- Continuous heavy duty rub rail
- Handholds for passenger safety
- Powder-coated aluminum Bimini & lighting arch
- Hardware - 316 Stainless or chrome over stainless dependent on application
- Non-Slip molded into all deck surfaces
- Integrated completely sealed foot wells providing user comfort & security
- Stainless bow eye
- 3 Stainless lifting rings/cleats (2aft-1 forward)
- 2 Stainless pop-up cleats

## OPTIONS

### MODELS:

- Standard Fun Model with 30HP Tohatsu®, Bimini Top, 16" Spray Shield, Hull (White/Lime)
- Fishing Model with 40HP Tohatsu®, Electric Trolling Motor package with Lithium battery, Bimini Top, 21" Spray Shield, Hull (White/Lime)

### TRAILERS:

- Custom heavy-duty aluminum trailer with torsion axle, designed to withstand long distance travel
- Custom heavy-duty aluminum trailer with torsion axle & folding tongue
- \*Spare tire & mounting bracket for trailer

### ELECTRONICS:

- 9" Garmin® GPS & Fish-finder
- NEMA 2000 Pre-Wired to console
- 12V/5A Pre-Wired to console
- Dual waterproof USB charging ports

### ENGINE:

- \*Fuel Water Separator
- \*Auxiliary 3 Gal fuel tank
- NEMA 2000 Pre-Wired to console
- Hour meter

### CONVIENIENCE:

- 21" Spray shield
- \*Drawstring seat covers
- \*Cell phone mount
- Additional StarPort mounts (set of two mounted on front wings)
- SeaDek® Opt-1 gray 4" teak
- SeaDek® Opt-2 gray 4" teak with 36" fish ruler markings
- \*Sand Docker® shallow water anchor
- Fluke Deep water anchor

### \*Recommended Items

Multiple Patents Pending

## What sets ProGlider Boats HyperGlider™ apart from others?

- Courteous customer support.
- Unibody construction (no bolt on pontoons or motor mounts).
- Absolutely no use of any wood materials in construction.
- Propellers cannot inadvertently cut hulls when motor is tilted up and turned.
- Flat walking surfaces incorporating non-slip molded directly into fiberglass with optional SeaDek® on main deck.
- Only the very best saltwater rated hardware and materials are used to prevent corrosion.
- Powder-coated 2" aluminum lighting & Bimini arch.
- Comfortable shock mounted bucket seats.
- Passenger handholds.
- Drier ride due to increased freeboard, higher seating position and patent pending hull design.
- Drier ride due to completely sealed footwells.
- Drier ride due to one-piece polycarbonate splash shield.
- Simple one-piece Sunbrella® Bimini that doesn't interfere with operation of shift/throttle control when open.
- Larger group 24 starting battery.
- Main power shut off switch preventing battery drain when not in use.
- Completely sealed steering mechanism in center console.
- Heavy duty continuous rub rail.
- Unobstructed navigation lights.
- Ability to walk anywhere on boat without capsizing, extreme stability.
- Walkable gull wing design for access to aft sections of boat.
- 5/5/1 Fully transferrable warranty.
- Stainless-Steel pop-up cleats vs plastic.
- 360° Bluetooth speaker sound system.
- Full fiberglass sandwich construction using the best closed cell foams, glass fabrics, and vacuum infusion technology available.
- Carbon fiber reinforced fiberglass where required.
- Dialed-in stainless steel propeller for top performance.
- General overall robustness.
- Fits in standard 7' high x 20' deep double garage when on trailer.
- Aluminum torsion axle trailer to prevent rusting.
- Did we mention courteous customer support?☺
